Subject, Grant for the construction of the first stage of
the drainage scheme at raykonda
=====

Sir,

Adverting to G O No L 5687-90 L1 86-42-18

dated 9-12-1944 sanctioning the estimate for Rs 22,734 for a
comprehensive drainage scheme at raykonda to be worked out
in four stages and to execute the 1st stage of scheme costing
Rs 6565/ I have the honour to state as follows,

(1) The Chief Engineer for Roads and Buildings in Mysore,
Bangalore has in his letter No 500 dated 14-7-1945 (copy enclosed
for favour of reference) intimated that only one tender was
received quoting 35% over the estimated rates and according
to this tender, the total cost of the first stage of scheme
works up to Rs 8597/ as against Rs 6565/ sanctioned by
Government and has requested the Municipality to pay half the
cost of the estimated amount of Rs 8,597/ (viz, Rs 4299/) the
other half being met by Government

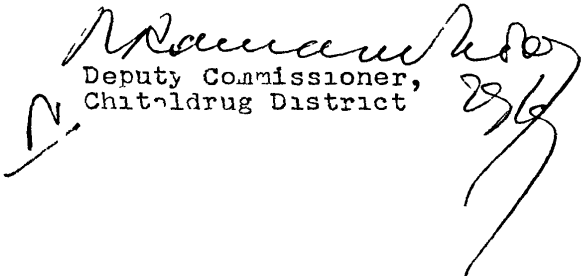

3) The President of the Municipality has, in his report
No 26/44-45 dated 1-9-1945 stated that as per G O dated
9-12-1944, the Government grant of Rs 3283/ was drawn and
credited on 25-1-1945 and the Municipal Quota of Rs 3283/ was
also credited on 4-1-1945 to 17(1) P deposits and the
entire amount of Rs 6566/ being the estimated amount for
the 1st stage of the work, has been placed at the disposal of the
Sanitary Engineer The Municipal Council, Raykonda, at its
meeting held on 31-7-1945, has resolved that it is not possible
to contribute ~~the~~ any more money for the present as the closing
balance of the Municipality is only Rs 674-14-4 and requests
the Government to kindly sanction this extra amount of Rs 2032/

as an additional grant or in the alternative half the extra cost ie , 1016/ may kindly be sanctioned as a grant and the other half viz , 1016/ be advanced as a loan to the Municipality at 4 $\frac{1}{2}$ % payable in ten equal instalments The Municipal Council has resolved to increase its resources by levying fresh taxes and to pay the loan instalments out of the amount realised thereby

4 Under the above circumstances, I request that orders of Government may kindly be obtained to sanction this additional sum of Rs 2032/ as a special grant from Government on account of the poor resources of the municipality or ^{or} ~~if~~ this is not possible, half of this amount may kindly be sanctioned as a Government grant and the other half advanced to the Municipality as a loan at 4 $\frac{1}{2}$ % interest repayable in ten annual instalments as per resolution of the Municipal Council The Municipal Council will be ~~not~~ advised to improve its resources by levying fresh taxes etc,

5 A copy of the resolution of the Municipal Council is also enclosed for kind reference

=====

Adverting to Government order No L 5687-90 ML 86-42-18
dated the 9th December 1944 sanctioning the estimate for Rs
22,734/ for the comprehensive scheme of constructing drains in
Mayakonda and ordering that the work has to be executed in four
stages, the cost being met in equal proportions by Municipality
and Government, I have the honour to state that the Sanitary
Engineer has reported that tenders were called for, for the exe-
cution of items 1 and 2 viz , main drains and street drains and
in response only one tender was received quoting 35% over the
estimated rates According to this tender, the total cost of the
first stage works up to Rs 8,587/ and is therefore more than
the sanctioned estimated cost by Rs 2,032/ I therefore
request you to kindly obtain approval of the Municipal Council
Mayakonda town to pay half the cost of the estimated amount
Rs 8,587/ viz , (Rs 4,299/-) the other half being met by
Government On receipt of your reply in the matter, Sanitary

Subject NO. IX -
memo NO A.C. 48/45-46, dated 18.7.1945
calling for the views of the Municipal Council
in the matter of paying half the cost of
the estimated tender amount i.e., more
than the sanctioned estimated cost by Rs 2032/-
towards the execution of the I stage drain
works in this municipality.

Resolution

The memo was read and recorded
The amount at the credit of the munici-
pality on date is Rs 674-14-4 excluding a
sum of about Rs 1150/- spent on the Municipal
Lgroom Depot. Out of this sum, it is not
possible to contribute any more ~~amount~~
towards the Drainage scheme, as it is
required for the day today expenses. Hence
it is unanimously resolved to request
the benign Government to sanction a
grant of Rs 2032/-, in addition to the sum
that is already sanctioned and to complete
the Drainage Scheme.

In case this full sum is not sanctioned
it is further requested to sanction a

Copy of letter No.26/14-45 dated 21-10-46 from the President Mayakonda Municipality to the Deputy Commissioner, Chitaldrug District.

In continuation of this office report No.C.26/44-45 dated 20-7-46 re: the drainage scheme of this Municipality I beg to state that Rs.8598/- comprising both Government grant and Municipal contribution is deposited towards the drainage works of this Municipality. The Sanitary Engineer was addressed kindly to take up the work, pending payment of Rs.1251/- being the excess cost over and above the previous estimate. He has replied in his letter that unless this sum is paid, the works cannot be taken up. The council in its meeting held on 30-5-46 has resolved that in view of the slender resources of this Municipality, the Government may be requested kindly to meet this excess cost also, and that pending sanction to this grant the work may be commenced.

Drainage is of paramount necessity to this town, and unless this is done no improvement worth the name could be made. With this point in view the Sanitary Engineer was requested kindly to take up the work. But he is insisting on the payment of this small sum. The Government grant as well as the Municipal funds are lying idle, and the latter is locked up with no opportunity to utilise the same. The Municipal councillors are urging on this matter, and no reasonable explanation can be provided for this.

There is no probability, that the rates of material would go down in the near future. Until that time the Municipality cannot afford to wait for the reasons stated above. Hence I beg to request that the Sanitary Engineer, may kindly be addressed to commence the 1st stage of the drainage work immediately, whatever may be the cost.

Date

3rd Jan 47

With reference to your letter No L.8120 dated 30-11-1946 calling for certain particulars regarding the above work, I have the honour to state as follows -

The Sanitary Engineer was instructed to call for fresh tenders in accordance with your letter No L.6469 dated 9-1-1946. In response to the notification, three tenders were received, the lowest being 50% above the estimated rates. As even this was very high, the Sanitary Engineer was again instructed to call for tenders with a view to get favourable rates, local quotations were called for by the Assistant Engineer, No 4 Sanitary Sub Division, Chitaldrug and in response, two quotations were received one at 60% and the other at 50% more than the estimated rates. As the position did not improve, the Sanitary Engineer was instructed a third time in this office letter No 3996 dated 19-11-46 to call for tenders once more. Accordingly tenders have been called for by ~~him~~ the Sanitary Engineer fixing 18th December 1946 as the last date for receipt of tenders. The tenders will be forwarded to Government for orders, as soon as they are received in this office from the Sanitary Engineer.

Official Memorandum.

-Review on the Budget Estimates of Mayakonda Municipality for the year 1946-47.

The Municipal council anticipates an income of Rs.14731/- and proposes an expenditure of Rs.12,519/-

The receipt side of the budget is approved with the following modifications and observations.

Receipts: A Municipal rates and taxes 2 Taxes on buildings and lands. A sum of Rs.2200/- is anticipated under this head. This is enhanced to Rs.2500 as the demand including arrears comes to Rs.2825/-. There is no provision to levy a cess on taxes on buildings and lands. The provision of Rs.300/- anticipated under sanitary cess is deleted as it is not advantageous to levy this cess as the expenditure to be incurred by the Municipality for cleaning the private latrines premises etc, will be nearly four times the anticipated receipts of Rs.300/-. This point was made clear during the tour of inspection of the Municipal office in June 1946. The President is directed to improve the lighting arrangement in the town and take immediate steps to levy lighting tax at 1/3 of the rate leviable under item A. of schedule II of the taxation rules. Maximum rates of octroi as per schedule I may also be levied to improve resources of the Municipality as per instructions given in the inspection notes.

D.Grants and contributions. A sum of Rs.8596 provided under this head is reduced to Rs.4298/- as Government grant for the drainage works. The loan amount of 4298 to be sanctioned from Government for the work has to be shown under I Public Debt.

F.Public Debt. 1.Loans:- The sum of Rs.4298/- representing the loan from Government for the drainage work is included under this head.

The actual closing balance as on 1-7-46 is Rs.251/-.

With the above modifications the receipt side of the budget will be follows:-

A. Municipal rates and taxes.	3490
B. Realisations under special Acts.	110
C. Revenue derived from Municipal property.	2210
D.Grants and contributions.	4298
F.Public Debt	4623

TOTAL RECEIPTS. 14982

Expenditure:-

A General Administration. 2 Municipal office (a) Sal Establishment. A sum of Rs.96/- on account of enhancement of dearn allowance and a sum of Rs.300/- to meet the pay of the Assessing of are included.

2.Other Taxes.-

A provision of Rs.600/- is made by the council towards the employment of a sanitary Inspector. During the time of inspection instructions were given to propose the employment of a bill collector as the collections were very bad as the Sanitary Inspector cannot be primarily responsible for collection work. Besides the appointment of Sanitary Inspector will have to be made by the Director of Public Health and the expenditure will be very heavy on this account. The provision reduced to Rs.300/- for the employment of a bill collector of Rs.25/- per dearness allowance for a period of eight months of the collector work cannot be attended to by the Shanubhogue and the Patel, proposals for employment of a bill collector may be submitted. The question of employ

ing a Sanitary Inspector may be taken up after the resources of the municipality are improved. By practical experience, it is found that Sanitary Inspector attached to the Municipalities of Holalkere, Jagalur and Challakere are of very little use in regard to collection work. Total under A will be Rs.1705/-

D.Public Works:- The provision of Rs.8596 for drainage work is deleted and included under 'Advances'. A sum of Rs.200/- is provided to create amenities to the scavengers etc. Total under D will be Rs.400/- (four hundred).

E.Public Healths and Convenience:- A sum of Rs.144/- on account of enhance dearness allowance is included. Total under E will be Rs.1551/-.

I.Public Debt. A sum of Rs.8596/- for drainage works is provided under 3 advances as this has to be advanced to the Public Works Department for execution of the work. Total under I Public debt will be Rs.8596/-. All the other provisions made are approved with the above modifications, the expenditure side will be as follows:-

A. General Administration	1705
B. Public Safety	406
D. Public Works	400
E. Public Health and convenience.	1551
F. Public Instruction	45
G. Contributions.	6
I. Public Debt	8546

Total Expenditure	12959
-------------------	-------

Receipts and expenditure will be as follows:-

Opening balance -	251
Receipts during 26-47.	14731
Total	14982
Expenditure	12959
Closing balance.	2023.

The normal receipts and expenditure are worked out as follows:-

Receipts.	14731/-	Expenditure.	12959/-
Deduct extra-ordinary items.		Deduct extra-ordinary items.	
-1. Sale of lands. 100/-	11021/-	1. Pay of assessing officer.	300/-
2. Realisations from the Municipal grain depot.	2000/-	2. Dearness allowance.	816/-
3. Govt. grant for the drainage works.	4293/-	3. Public Debt.	8846/-
4. Public Debt.	4623		
Total	11,021	total	9962
Normal receipts.	3710/-	Normal expenditure.	2997/-

The normal expenditure is within normal income. The financial condition of the municipality is very poor as the closing balance of the municipality is Rs.251/- as on 1-7-46. The Municipal council has to provide funds for the drainage work. The president is directed to take immediate steps to levy lighting tax as provided in schedule II of the taxation Rules and to levy the maximum rates of octroi as provided in schedule I. The collections are very bad. If the sharrubaoque and the patel do not turn out the work properly in maintaining demand registers on and collect the entire dues the collection work has to be attended to by the bill collector to be employed. The question of employing a Sanitary Inspector may be considered when the finances of the Municipality are improved. The president is directed to pay his particular attention to improve the resources of the Municipality and to collect the entire Municipal dues as otherwise the Municipality will have to be converted
